Dear Mr. Harrison,

An extension of time to update your notice of intent for the White Mountain 2 site and complete the surety requirements is hereby granted. You now have until February 26, 2007 to complete these important permitting requirements. Please work closely with Tom Munson and Beth Ericksen to get the necessary paperwork in place. Also, a review of our records has revealed that you are delinquent in paying the permit fee that was due last July. The fee in the amount of \$150 must be paid immediately in order to keep this permit active. Please call if you have any questions.

Sincerely,  
Daron R. Haddock  
Permit Supervisor

Dear Mr. Haddock -

I would like to request an extension to update the NOI or submit the surety for a property in Beaver County near White Mountain. I am working with the people at Utah Clay Technology to accomplish this. We need to register a new corporation with the Division of Corporations and get the permit into an individual's name. We will also work with Tom Munson to review the NOI and make the necessary changes.

I am requesting that we have 30 days to complete this process. Thank you for your consideration.

Tom Harrison
